

METHOD FOR PRODUCING N-BUTYRYL-4-AMINO-3-METHYL-METHYL
BENZOATE AND THE NOVEL COMPOUND N-(4-BROMO-2-
METHYLPHENYL)BUTANAMIDE

ABSTRACT OF THE DISCLOSURE

The present invention relates to an improved process for preparing methyl N-butyryl-4-amino-3-methylbenzoate and the novel chemical compound N-(4-bromo-2-methylphenyl)butanamide.
